Job Information - IA

DUTIES: As part of the team providing instruction to learners enrolled in the College's Engineering Technology Programs, you will be responsible for providing support within the Electrical/Electronics program cluster. The program options offered include biomedical, software, instrumentation, power and controls, and telecommunications.

QUALIFICATIONS: The successful candidate must possess strong knowledge of electronics engineering technology principles; strong oral and written communication skills; analytical and organizational abilities; as well as the ability to work effectively as a team member. Candidates must have strong commitments to a student-centered approach to teaching and to student success strategies. Completion of an accredited Diploma in Electronics Engineering Technology is required along with a working knowledge of microprocessors, microcontrollers, analog electronics and electric circuit theory. Industrial experience and/or experience working with adults would be a definite asset. Meeting the eligibility requirements for P.Tech (Professional Technologist) with AETTNL would also be considered an asset.

SALARY: Commensurate with qualifications and experience in accordance with the College of the North Atlantic Faculty Agreement, Instructional Assistant's Classification Plan.

Closing Statement

College of the North Atlantic is an Equal Opportunity Employer

The successful candidate will be required to provide a recent Certificate of Conduct.

Please apply on line complete with resume at www.cna.nl.ca. University/College transcripts and names of three professional references will be required as part of the interview process.

Candidates must clearly demonstrate in their resume that they meet all of the required qualifications. Failure to do so may result in a candidate being screened out of the competition.
