Profile of the Associate Member

The category of Associate Member is open to those who are employed in the related applied science/engineering fields, but are unable to meet the academic requirements. Students in the 2nd year of a Technician Course or 3rd year of a Technology Program or a new graduate with less than 2 years of technical experience or equivalent may also be granted Associate Membership. They will upon admission and payment of the requisite fee, be afforded the right to attend meetings and participate, however may not take motions, vote nor hold office.
