

Come Join Our Team!

Instructor, Mechanical Engineering

Are you looking for an international assignment with a great Canadian College and an opportunity that offers:

Competitive Compensation • Furnished Accommodation • Single or Family Status Contract • Relocation Allowances • Annual Travel • K-12 Education for Children • Living Allowance (Canadian Residents) • Pension (Canadian Residents) • Comprehensive Medical Insurance • Family-Centered Environment

Then join us for an exciting and rewarding career at our world-class technology college in the Middle East.

College of the North Atlantic – Qatar is a comprehensive technical College with a well developed international reputation in the State of Qatar. We are seeking dynamic people who are culturally-sensitive and student centered as **Mechanical Engineering Instructors** for a three-year contract commencing in January 2009 (or earlier). If you are a Canadian citizen with excellent English language skills and are ready for a professional and personal adventure in the Middle East, we want to hear from you!

DUTIES: The instructor will be responsible for the development, delivery and evaluation of a broad range of courses within the Mechanical Engineering Technology Program. S/he will evaluate student progress and manage the resources of the learning environment. The instructor will liaise with industry and other educational institutions; participate in industry advisory committees and coordinate, manage and control projects within the specified program area. Instructors will keep course portfolio documents required for accreditation processes and engage in instructional development/improvement plans. All employees are expected to contribute to professional and community life within the College and beyond.

QUALIFICATIONS: Minimum of a Bachelor Degree or Diploma in Mechanical Engineering Technology and appropriate designations as prescribed by the College and industry. Candidates must possess a thorough knowledge of, and strong hands-on aptitude in industrial maintenance technologies; including rotating equipment, pumps, piping systems, hydraulics, pneumatics, refrigeration and building systems, preventative and predictive maintenance, and non-destructive testing. Teacher training and experience teaching at a post-secondary level are definite assets along with welding certifications. Expertise in curriculum development is desirable. Strong communication, presentation, and classroom management skills combined with the ability to establish and maintain effective work relationships are required. Fluency in English is essential.

COMPETITION NUMBER: CNA-Q.PPD.MT.09.23AETTNL (quote when applying).

DEADLINE: September 17, 2009

NOTE: Employment is contingent upon successful completion of the State of Qatar visa process.

If you are a **Canadian** citizen with excellent English language skills and are ready for a professional and personal adventure in the Middle East, we would like to hear from you. Successful candidates will be required to provide a recent Certificate of Conduct. Quoting the specific competition number, please forward **via e-mail** your resume and contact information for three current references to the e-mail address below using Microsoft Word. If called for an interview, you must provide original transcripts.
