

About the Organization

Casman Group of Companies is a local Fort McMurray, Alberta operation providing industrial, commercial and residential construction, HVAC, plumbing and electrical services, and millwork products to the Fort McMurray market. From excavation and foundations to project turnover, the *Casman Group of Companies* provides an extensive array of services across the broad spectrum of construction project scope and complexity. Incorporated in 1982, the company now includes six operating divisions with expertise in residential and commercial general contracting, plumbing, electrical and millwork, as well as industrial construction, maintenance and specialized concrete foundations.

About the Opportunity

A division of the *Casman Group of Companies*, *FMR Mechanical* is seeking an experienced **Project Coordinator / Estimator** to work in their Fort McMurray team.

Reporting to the Operations Manager, the main aim of the role is to **calculate and estimate accurate tenders for customers to ensure the company receives an adequate return on the resources employed**. In addition, you will be **required to maintain updated schedules and assisting field personnel in planning labour and manpower**.

The range of day-to-day duties involved in this position includes:

- Preparing tender prices from the architect's or engineer's drawings and the bill of quantities supplied by the client;
- Estimating cost of labour and equipment;
- Being responsible for the quantity survey, unit pricing, general conditions cost managing of the work, and the application of overhead costs;
- Assisting in initial sequencing of construction activities and outlining components;
- Tracking costs against the estimate and identify improvements;
- Assuring that the drawings and plans are accurate and that the project is executed on time;
- Arranging and coordinating the project's documentation flow, turnover documents, labour, material, and equipment requirements;
- Updating and maintaining work schedules on a weekly basis and working closely with field personnel;

To be successful in this role, you will need to have completed a **technical engineering degree** or have an equivalent combination of technical training and experience.

FMR Mechanical is looking for a **Mechanical Engineering Technologist** with a **C.E.T. designation**.

This role requires an individual with several years experience in a similar role within a **mechanical contracting business**. Having a strong technical background in the mechanical and associated trades industry including Plumbing, Piping, and HVAC – both industrial and commercial is required.

About the Benefits

As a reward for your hard work and dedication to the job, you will be rewarded with an **attractive rate of \$36 - \$38 an hour** depending on experience and qualifications.

In addition, *Casman Group of Companies* employees enjoy a wide range of excellent **benefits**, including...

- Generous **medical, dental, and vision** plan;
- **Life and disability** insurance;
- Long Service **Bonus of \$1,000 per year** of service, paid annually;
- 9.6% **vacation and holiday pay** on each cheque;
- Employee **education assistance** as furthering education is supported; and
- A **friendly and dynamic team culture**, with various Corporate **Social Events** twice a year;
